Skater's ranking %:

Step 1 – Calculate the Individual Distance % for each of the 4 age class distances by dividing the skater's time in seconds by the record in seconds.

Step 2 – Calculate the skater's ranking % by taking the average of the lowest two Individual Distances %'s found in Step 1.

***National Standards:**

Step 1 - Calculate by multiplying the current Canadian Record in seconds for each distance by 115%, 110% and 105%.

Step 2 – Convert the answer in Step 1 back into minutes.

The National Standard times are the times required in each distance to achieve the percentage indicated.

Qualifying for Nationals as per SSNS Nationals & North Americans Policies & Procedures:

- 4.2.1 Skaters are in the Midget to Intermediate Age Class and are registered members for the current season with SSNS and SSC. (Age qualifications for Nationals are currently under review)
- 4.2.2 During the current season the skater must attend at least two meets within the Atlantic Provinces, with one being in Nova Scotia.
- 4.2.3 The skaters PB times obtained during the current season result in a Ranking % of 115.00% or lower, as confirmed by the provincial statistician.
- 4.2.4 A maximum of four skaters per gender & age class categories, can attend, with the lowest ranked skaters having the first options.
